

# Preconstruction Checklist

Here are a list of items to collect to ensure accuracy of quote

## 1 Project Location

- Property Address
- Access Point for Delivery & Equipment
- Note any access restrictions (e.g., gated entry, narrow roads, HOA rules)

## 3 Permits & Zoning

- Does your city/county/HOA require a permit for your planned wall height?

If yes, do you want Stackwall to assist with obtaining a permit for additional fee?

## 2 Measurement & Layout

- Use the Stackwall Linear Feet Calculator to:
- Enter your address
- Trace perimeter directly onto map
- Get your total linear footage for your quote

## 4 Delivery & Installation

- Is the site ready for installation? (e.g., grading completed, utilities marked?)
- Is demo or haul away required? If yes, mark items below.

### REMOVE:

- ☐ Fence
- ☐ Debris

### CLEAR FENCE LINE OF:

- ☐ Brush
- ☐ Debris

### HAUL AWAY:

- ☐ Fence
- ☐ Concrete
- ☐ Chainlink
- ☐ Wood
- ☐ Debris
- ☐ Soil

## 5 Client Contact Info

Email  
Phone  
Address

## 6 Neighbors Contact Info

Email  
Phone  
Address

## 7 Project Quote Interest Level

- Initial Estimate Only
- Speaking with a sales rep
- Scheduling an on-site assessment
- Ordering a sample project box

See the quality for yourself—order a StackWall sample box to inspect our materials, colors, & textures up close. It's the best way to ensure the product meets your expectations before you commit.
